ANALYSIS FRAMEWORK

Methodology & Certification

Transparency in our analysis approach, data collection methods, and scoring methodology

Data Collection

- Real-time AI platform queries
- Multi-provider analysis (ChatGPT, Gemini, Perplexity)
- Competitor benchmarking
- Industry-specific prompt simulation

Scoring Formula

- Presence Score: 40% weight
- Sentiment Score: 25% weight
- Position Score: 35% weight
- Weighted average calculation

Analysis Period

- Last 7 days of simulation data
- Real-time market intelligence
- Updated on each analysis run
- 24-hour analysis cache

Certified Analysis

Results validated across multiple AI platforms
